Dear Mr. Groden:

Thank you for submitting an application to the New York Department of State for a Local Government Efficiency grant. The Department received many excellent applications. However, due to funding limitations and the volume of qualified submissions, we were unable to fund your project.

While the project was not successful in this round, it may be eligible for future Local Government Efficiency program assistance. We will be in contact with you to see if we can be helpful in developing future projects. I also encourage you to visit our website at <http://www.dos.ny.gov/lg/> for funding availability announcements and to review what other local governments in New York State are accomplishing.

I also encourage you to access the New York State Grant Opportunity Portal at <https://grantsgateway.ny.gov> for news and updates on all grant opportunities from New York State which may be helpful in your efforts to manage local services.

As always, if we can be of assistance to you please do not hesitate to contact us at 518-473-3355 for additional assistance.

Sincerely,

Mark Pattison  
Director of Local Government Services

**Re:** Solar "farms"

---

Over the past few weeks I have had conversations with several land owners who have been contacted by solar companies regarding installation of solar "farms" on their properties. The companies are usually looking for a lease period of 20 years on a 20 acre portion of their property with a per acre lease fee of 1000 to 1500 per acre per year. This is a significant income stream for a taxpayer to be eligible for. It has come to my attention that the zoning has no provisions for this type of use and is denied because of that. I would suggest that, in order to allow this kind of opportunity for some Greenville taxpayers, that some allowances or procedures put into place.

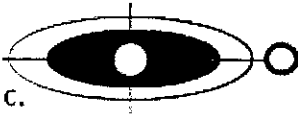

Thank you

If further information or action is required, please contact our office.
